

TOUGH ENOUGH.

> RUGBY ELIMINATOR LP

HARDEST-WORKING DUMP BODY IN LANDSCAPING AND LIGHT CONSTRUCTION.

Go hard, or go home. With the Rugby Eliminator LP, you'll be hard at it until the last load is hauled and unloaded. The steel model features a seamless, one-piece steel floor for optimum strength and durability. Floor length allows for full sheets of plywood or other materials.

The Eliminator LP design also features front pillars that incorporate forward-facing clearance lights positioned at a 45-degree angle at each corner. Rugby® products feature light locations that may assist the installer in meeting FMVSS/CMVSS 108.

ELIMINATOR LP

DURABLE CARBON STEEL

Get the advantages of a lighter weight dump body without sacrificing the durability your job requires. Whether you're hauling gravel or a load of landscape pavers, this dump body delivers enhanced payloads and rugged durability.

Eliminator Carbon Steel LP body options for 2-3 and 3-4 yard rigid and fold-down side models include:

- Cabshields (1/4, 1/2, 3/4, full) standard and tall
- One-piece 10 ga or 7 ga floor
- Cross sills on 16" centers (12" optional)
- Choice of stacked or crossmemberless understructure
- Aluminum side assemblies available on 2-3 and 3-4 yard fold-down side models
- LED lighting standard

STANDARD FEATURES:

- 10, 12 ga construction
- Side design with fully boxed dirt-shedding top rail and sloped bottom rail for improved self-cleaning
- Double-walled rigid sides with vertical braces
- Single-walled fold-down sides with vertical braces
- Pockets for 6" side boards increase load capacity
- Seamless one-piece front body features triple bend top rails for long-term durability
- Stacked understructure consists of 5" structural long members overlaid with a combination of 3" structural I-beam and formed crossmembers nominally spaced 16" (12" optional) apart
- Standard 1/4 cabshield with viewing window
- Full height corner posts with rear surface sloped aids in tailgate closing
- Tailgate features double-walled panel design with fully boxed dirt-shedding top and bottom rails
- Standard 10 ga floor
- Board pocket design aligns with cabshield and allows the use of tapered side boards to increase capacity when hauling lighter loads such as brush, firewood and mulch

CABSHIELD POSTS

Full height corner posts include cut-out for fast installation of cabshield insert. Makes all Eliminator LP cabshields interchangeable, helping to keep inventory low.

Note: While the addition of a taller side board allows for some additional capacity, you must follow the maximum weight capacities of your body and hoist. All specifications are subject to change without notice.

WEIGHT-REDUCING ALUMINUM FOLD-DOWN SIDES - OPTIONAL
Easy operation utilizes a centrally located quick-release lever that extends and retracts 3/4" pins at each end using a solid linkage member.

PATENTED EZ - LATCH™ SYSTEM
Designed for easy body access, our industry-leading latch system allows quick opening and slam-lock operation with a cam action that draws in upper tailgate pins.

CARBON STEEL RIGID 2-3 YARD BODY

Body Length (inside)	9' 3"	11' 3"	12' 3"
Body Capacity	2-3 yd ³	2-3 yd ³	2-3 yd ³
