

## **The Best Cover In The Business Comes With A Limited Lifetime Warranty!**

Our mission is to design, manufacture and distribute the best retractable pickup bed covers in the world. Our quality materials, our unique manufacturing methods and our attention to detail have all become benchmarks against which other bed covers are judged. In fact, we believe in our product so strongly that we offer a limited lifetime warranty, making us the last bed cover you'll ever buy.

*The Last Bed Cover You'll Buy*

### **Why Retrax™?**

We've been manufacturing the most innovative, most durable, most trouble-free bed covers in the business since 1996. Our products are made in America, and we stand behind every one of them with customer service that has become legendary throughout the industry.

#### **Order your RetraxPRO™ now, and it will be:**

- Built to last
- Delivered on time
- Ruggedly stylish

**The RetraxPRO™ will be the best accessory you ever buy for your truck. What are you waiting for?**

For questions or to place an order, contact **HAWKEYE TRUCK EQUIPMENT** at 515-289-1755 or 1-800-622-8223.

# RETRAXPRO™

## **THE LAST BED COVER YOU'LL BUY™**

Made in the USA

U.S. Patent  
6848734

Our patented design prevents the cover from rolling onto itself and allows the cover to stay flush whether the cover is open or closed.

## **Sealed-For-Life Bearings Mean Smooth, One-Handed Operation!**

Sealed, ball-bearing rollers are mounted onto each section. This allows the retractable cover to open and close easily with one hand, without the need for pull straps, Velcro, snaps or springs. Ball-bearings provide smooth operation, preventing the cover from ever binding when opening or closing.

## **Patented System Stays Flush Open Or Closed!**

Our patented, low-profile design is always flush, enhancing the integrity of your truck's style rather than overcoming it. Your cover will seal tight and look good. Unlike soft covers that bulk up when rolled, the flush front cover streamlines the overall appearance and provides a firm, dependable seal that keeps out the elements and helps keep the bed dry.

## **Rugged Aluminum Construction!**

RetraxPRO™ bed covers are made with industrial strength aluminum, giving them the strength to support distributed loads of *more than 500 pounds!*

**Easy on the eyes, tough to damage and simple to care for: put a RetraxPRO™ on your truck today.**

Strong aluminum construction.

## **Locks In Any Position!**

The RetraxPRO™ cover can be latched or key locked in any position. This allows for unlimited flexibility in hauling almost any object, and the secure Dual Latch Locking System provides protection unlike any other cover.
