

# MONGOOSE™

## DUMP XL BODY

- Designed for medium duty jobs. The XL is offered in 3/16" and 1/4" AR400 tough, wear resistant steel.
- Crossmemberless design with large radius corners allow clean, easy dumping.

See additional features on back page >>>

For jobs that call for handling broken concrete, shot rock or other high impact materials, HilBilt's Heavy Duty Mongoose has stood the test. Depending on the severity of the job, this body is offered in 3/16", 1/4", & 5/16" AR400 steel.

- Re-enforcing the floor are 4 x 6" formed crossmembers on 12" centers.
- The HD also features a 4 x 6 x 1/4" Hi-Strength tubular top rail.

### HEAVY DUTY

## DUMP BODY

# HilBilt®

QUALITY THAT WORKS

# DUMP BODY FEATURES & OPTIONS

## ■ STANDARD ASPHALT APRON

Apron is made of 1/4" Hi-Strength steel with integral bracing.

## ■ HEAVY DUTY ASPHALT APRON

The Heavy Duty apron has a 3" schedule 80 tube.

## ■ TAILGATE LATCH SYSTEM

Adjustable "over center" T-1 tailgate latch. Remains closed even in case of air malfunction.

## ■ CAB PRO MOUNT TARP SYSTEM

HilBilt® offers a full line of tarps.

## ■ HIGH LIFT COMBO TAILGATE

Operated by two 4" air cylinders, the tailgate is raised an additional 24" for easy dumping of large materials.

Tailgate hinge assemblies have greaseable pins with hardened T-1 bushings. The pins can be easily removed for tailgate removal.
