# Telescoping Tower System

You Can't Top our Telescoping Tower designed specifically for the Waste Industry. The Tower adjusts from 72" lowered, to 120" when fully extended. The Tower System includes everything necessary for installation along with our self contained hydraulic power pack and 102" wide Wind Protector.

## Tower Features:

- Full 4 ft. of Tower lift
- Powers up and down
- 2" x 4 3/16" wall rectangular steel tube
- Bolts to frame with U bolts (included)
- Wiring terminal ends pre-assembled
- Fixed Ram eliminates hose movement and wear
- Remote switch mounts anywhere
- Time tested electric Smart Switches™
- Installs in a few hours

## Super Mesh Woven Super Heavy Waste Tarps

Super Heavy Duty mesh tarps that are great for Rolloffs, hook lifts and lugger box applications. The tarp is made of 13 oz. Heavy Weight woven mesh with UV protection and 7 x 7 weave breathes to reduce flapping. Double lock stitching, with hem tube for double wrap teardrop or reinforced arm pocket and grommets every 3' for extra strength and durability.

Self Contained Hydraulic Power Pack

Part #501-9958

## Wireless Remote

Easy to install with no switch to wire. Great option for Automatic Tower Systems with arm kits. The unique transmitter codes do not interfere with other remote devices. Can be operated up to 150 feet away and 360° around the truck.

# Automatic Tower System With Arm Kit

The Tower System combined with our Electric Automatic Arm System will cover containers up to 33 feet. Comes with our waterproof Smart Switch™. One switch for the tower, one switch for the arms. Also available with time tested Superwinch® wireless remote.

## Single Spring Arm Kit

These kits are "Simply The Best" because the heavy duty spring housings are fully enclosed, pivot smoothly on UHMW bushings and are not affected by water, salt or grit. The massive 2" spring is powder coated to resist corrosion better than any other spring on the market. The arms are made of Galvanized fence pipe or Common Aluminum pipe for easy replacement.

# Semi-Automatic Tower System

Easy Ratchet Spring  
Tension Adjustment

The Tower System is also available with the ultra reliable semi-automatic Pulltarp System. With the Tower fully raised, the tarp is pulled out to cover the load and secured to the back of the bin. The Tower is then lowered pulling the tarp down over the front of the bin. The heavy duty 12 gauge steel Wind Guard Housing comes complete with our external spring adjustment and has a lifetime guarantee\* on the roller spring.

# Automatic Arm Systems

## For Large Volume Scrap & Waste Trailers

Part #210-0215

Stock Widths:  
80", 84", 87", 89", 93", 96", 100"  
Custom Widths Are Available

### Universal Super Shield System

Strongest most durable tarp system available in the industry. Fully welded 12 gauge steel construction for protection from falling debris.

Part #204-0215

Stock Widths:  
80", 84", 87", 89", 93", 96", 100"  
Custom Widths Are Available

### Open System

Basic system great for applications where loader damage and falling debris is not a concern. Comes with black powder coated end plates.

Made of Galvanized Fence Pipe or Common Aluminum Pipe for easy replacement.

### Single Spring Arm Kit

Part #501-0786

The heavy duty spring housings are fully enclosed, pivot smoothly on UHMW bushings and are not affected by water, salt or grit. The massive 2" spring is powder coated to resist corrosion better than any other spring on the market. Product is available in steel or aluminum. Handles applications up to 40'.

### Pulltarps New Double Wrap Teardrop Pullbar

All Automatic Arm sets come standard with Pulltarps Double Wrap Teardrop technology. A process where the Hem Tube slides into the Universal Teardrop Pullbar and the tarp wraps around the bar twice in order to eliminate bunching and the stress on the stitching. The Urethane Bumpers are then fastened to the pullbar. This keeps the tarp centered and reduces noise.

Part #514-0501

### Heavy Duty Trailer Connector

Great for longer wire runs. Large contacts resist corrosion. Highest amperage rating available.
