MODEL TVL

MODEL TVL-A

MODEL TVL-LB

FEATURING:

- Meets TMC Electrical Guidelines
- Fast and Easy Installation
- Fully Enclosed Pump and Cylinder
- 75" x 30" to 95" x 66" Platforms
- Steel or Aluminum Platforms and Frames
- Level Ride Platform
- Auto Safety Latch System
- 1250 to 3000 Lb. Capacities
- Torsion Assist Platform Closing

Designed for use on van and stake bodies, cutaways, and step-vans, the THIEMAN TVL railgate series is the most reliable, low-maintenance, general-purpose liftgate available in the industry.

This popular railgate has the widest range of lift capacities in its class and is available for above-bed and special low-bed applications. If overall weight is a concern, the THIEMAN all-aluminum TVL could be the answer.

With its many standard features and versatile options, the TVL series from THIEMAN continues to be the leader of the general-purpose railgates.

Features, Benefits and Specifications

STANDARD FEATURES AND BENEFITS:

- Meets All TMC Electrical Guidelines for Reduced Service Requirements
- Pre-Assembled, Self Contained Pump and Cylinder for Easy Installation and Protection from the Weather
- Automatic Safety Latch for Hands Free Disengagement of Platform Both In and Out of Stowed Position
